

Can the Hakko 807 pencil-style handpiece (PN: C1091) be used with the base unit marked 472 (not 472B)?

The Hakko 472, 473, 472B, and 472D desoldering stations can all be operated with either the 807 (C1091) pencil style hand piece or the 817 (817-01) gun style hand piece.

To maintain accurate / optimal tip temperature it is recommended that you Adjust / verify the stations actual temperature whenever you change the heating element or **hand piece**.
