

What is the shelf life for the FS-100?

The shelf life of the FS-100 Tip Polishing Paste is 1 year. The product should be stored in a cool, dry place.

Once the container is opened, the polishing paste should be used as soon as possible.

When you are finished with the polishing paste, close the container tightly.

To determine the Date of Manufacture (DOM) on your FS-100 Tip Polishing Paste, look at the backside of the tin for a Numerical code .

For example 2018 with an 11 directly below it would indicate a manufacturing date of November 2018 .
