

Does American Hakko Products sell any products that contain HFC's ?

Congress enacted the American Innovation and Manufacturing (AIM) Act on December 27, 2020. The AIM directs the U.S. Environmental Protection Agency (EPA) to address HFCs. More Specifically, the AIM Act directs EPA to phase down production and consumption of Hydrofluorocarbons (HFCs)

American Hakko Products does not sell any products that use HFC's

For more information on the AIM act visit the US Environmental Protection Agency website using the link attached.
